UNBC is a publically funded institution and much of the research is sponsored by government funding. UNBC has, therefore, an obligation to ensure that the research is presented for the benefit of the public through presentation and oral examination of thesis, project or dissertation. However, because in some circumstances it would be detrimental to the author or the sponsor of the research to have it made public, the author of the thesis, project or dissertation may request a restricted oral examination.

Attendance to the restricted oral examination will include the following: Chair of the defence, Examining committee and Vice President Research and Graduate Programs (or designate). No other person will be in attendance without permission of the Office of Graduate Programs. Anyone in attendance will not disclose any information about what is presented and discussed for a period of 12 months. A declaration of such will be acknowledged by all in attendance by signature prior to the beginning of the defence.

This request must be submitted to the Office of Graduate Programs prior to or at the same time as request for oral examination is submitted.
