

SQM Group specializes in measuring call center quality assurance for organizational compliance and customer satisfaction performance for the largest companies in North America. SQM has locations in both Vernon, BC and in Coeur d'Alene, Idaho. Due to our consistent growth of 15% annually, SQM is looking for candidates for a junior programmer position within our Software Development Department.

The candidate should have the following:

- Proven programming experience
- Familiarity with ASP.NET, VB.NET, C# and/or Java
- Familiarity with Microsoft SQL Server and SQL
- Understanding of Object Oriented Programming
- Knowledge of XML and Web Services
- Multi-tasking, time management and collaboration skills
- Candidates must have post-secondary degree or diploma in an IT related field.

Salary and benefits are competitive. This is a full-time, permanent position working from our Vernon, BC office.
