Rare bear access

Using jet boat is one of the best methods for accessing exhilarating views of grizzly bears in this area. The estuaries, channels, and feeding areas we will take you are practically inaccessible any other way. No other mode of transport will get you closer without disturbing the bears' in their natural habitat.

Highlights include:

- **Prime bear feeding season** – June is primetime for feeding time for the coastal grizzly bears who have recently emerged from hibernation.
- **Stunning scenery** – Grizzlies seek out the succulent sedge grass that line the shores of the area's ocean inlets and coastal estuaries, setting the stage for spectacular wildlife scenery.
- **Untouched wilderness**– Khutzeymateen Grizzly Bear Sanctuary is the first protected area in Canada specifically for grizzly bears and their habitat – home to one of the highest concentrations of grizzly bears in Canada. The preservation area focuses on bear viewing, natural and cultural education, and traditional activities.
- **Local expertise** – Tour includes a variety of guest speakers who will share their expertise and passion for grizzlies.
- **Awesome accommodations** – Spend your first three nights at the secluded Yellow Cedar Lodge overlooking the world famous Skeena River before staying your final two nights at the Khutzeymateen Wilderness Lodge, the only one of its kind located in the grizzly sanctuary.

Your next great Northern BC adventure

"My favourite thing was being in the sedge grass with the grizzlies and being in the wild with them."

- Sheri Tillotson, tour participant

"I have done many outdoor adventures, both guided and non-guided trips and Continuing Studies runs one of the best I have ever experienced. The scenic beauty of Northern BC, one of the most beautiful places in the world, comes alive...it is a place that will take you away but be warned as you will want to come back over and over."
