Both British Columbia and Alberta have passed legislation affecting the use of self-insured funding for providing benefit plans. In each case, the legislation allows for the use of the self-insured funding subject to disclosing this information to the covered employees in writing.

Your Employer is constantly attempting to provide benefits to you in the most cost-effective manner. For some benefits such as Dental, Short Term Disability and some portions of the Extended Health Care, it is not always necessary to use the services of an insurance company. Consequently, some benefits provided through your Employer are not insured by an insurance company regulated under the Financial Institutions Act, and the employer is exempt from the regulatory requirements of the Act.

This brochure explains, in general terms, the plan of benefits and coverage in effect. It is not to be considered a contract of insurance. The complete terms of the Plan are set forth in the Plan Document.

ELIGIBILITY

Employees working at least 18 hours per week will be covered immediately upon active employment for Extended Health and Vision Care, provided a Group Insurance Enrolment Card has been completed and submitted to the Administrator.

Eligible dependents will be covered on the employee's effective date, provided dependent coverage is applied for. Newly acquired dependents must be enrolled within 31 days of becoming eligible.

Eligible Dependents are:

- Your legal spouse
- Your common-law spouse, provided you have lived together for at least one year
- Your unmarried children to age 19, who are dependent upon you
- Your unmarried children age 19 to age 25, who are in full-time attendance at a recognized college or university

Attainment of the limiting age shall not terminate the coverage for a child who is incapable of self-support as a result of mental or physical handicap and who is dependent upon you for support and maintenance.

TERMINATION

Coverage terminates on the earlier of the date your employment terminates or you retire, unless otherwise specified in the Plan Document.

Coverage for a Child (non-student) terminates at attained age 19. Coverage for a Child (student) terminates at attained age 25.

Coverage will terminate on the date the benefit or Plan terminates.
