Drupal Quick Tips

Title *

Do not use punctuation in the Title field

Add Documents from the File Browser with the Link tool.

Use Headings from largest to smallest (and only as headings, not for paragraph text).

Add images from the File Browser with the Images tool

DIV
DIV
DIV
H3
Some Heading

P
Always use Templates

P
Press Enter to create a new P container.

P
Press Shift + Enter to create a line break without creating a new P container.

Like this.

DIV
Turn this DIV container back into a P container by choosing "Clear Formatting (block)" from the styles drop-down.
