

Public Presentation – Terrace Campus

January 9th, 2015 12:00 pm – 1:00 pm

Northwest Results of the 2013 BC Adolescent Health Survey

In the spring of 2013, over 29,000 students in Grades 7-12 across the province completed the fifth BC Adolescent Health Survey. This presentation will share the findings for the Northwest area, including the most recent data on health indicators and risk behaviours for youth in this region. The presentation will also include a discussion of protective factors identified to promote positive health among local young people.

Presenter: Duncan Stewart, MA
BC Adolescent Health Survey
Coordinator and Research Associate

This session will also be available via livestream:
