

## Junior/Intermediate Biologist

Prince George, BC

**McElhanney Consulting Services Ltd.** seeks a **Junior/Intermediate Biologist** to join our growing environmental team in our Prince George, BC office—a regional leader in civil, geotechnical engineering, surveying, materials testing and environmental consulting in the transportation, municipal and industrial sectors.

### JOB DUTIES:

- Participation in all stages of environmental studies from proposal preparation through data collection, interpretation, and reporting
- Permitting, licensing and approvals
- Provide environmental advice and solutions to guide design and assist planning
- Environmental management and erosion and sediment control design and monitoring
- Build client relationships

### JOB REQUIREMENTS:

- University degree in biology (ecology, fisheries, wildlife) or a related field
- RPBio/BIT status or ability to achieve the professional designation
- Ability to work independently and with integrated consulting teams
- Ability to work in the field, occasionally in remote settings
- Proven report writing experience and communication abilities
- Ability to meet various client's contractual requirements
- Valid BC driver's license is required at the time of hire

### DESIRED EXPERIENCE BASE:

- 3-5 years' relevant work experience, or a relevant combination of education and experience
- Experience with and working knowledge of pertinent environmental legislation
- Experience in fisheries and watercourse assessments, habitat assessments and riparian area assessments
- Experience preparing applications for government agencies and with licensing and approvals

If you would like to be considered for this opportunity, submit your resume and cover letter online at [www.mcelhanney.com/careers](http://www.mcelhanney.com/careers). We thank all applicants for their interest; however, only shortlisted candidates will be contacted.

Established in 1910, **McElhanney Consulting Services Ltd.** is a Canadian employee-owned company offering top-quality engineering, mapping, surveying, planning, landscape architecture, and environmental services.
