

Northern BC Housing Conference: Housing Solutions for Changing Communities

November 17-18, 2016 in Prince George

Aging in Place: Opportunities for New Construction and Renovation

Gwyn Symmons
Principal, CitySpaces

Shelley Sim
Councillor, District of Clearwater

Seniors are the fastest growing segment of the population in northern BC; the number of people over 65 years of age will double over the next 20 years. Housing that is suitable for aging in place will be in demand, creating the opportunity for new construction and renovations for existing homes. This session will look at what this can mean for builders and renovators.
