

SPECIAL JOINT PRESENTATION

Dr. Lynne Quarmby

**Professor, Molecular Biology and Biochemistry
Simon Fraser University
(and Climate Change Activist)**

AN INFORMAL Q&A SESSION ON MY OPPOSITION TO THE PROPOSED KINDER-MORGAN PIPELINE

The Trans Mountain pipeline runs from Edmonton to the Westridge Marine terminal in Burnaby and delivers Alberta oil to the west coast for export. Kinder Morgan is currently proposing to build a second oil pipeline along that corridor so that it may increase the amount of oil being transported from 300,000 to 890,000 barrels per day. Recently, a group of landowners, business people, academics and environmentalists launched a constitutional challenge of the National Energy Board's review of Kinder Morgan's proposed expansion of its Trans Mountain pipeline. Lynne Quarmby, a member of the group, is visiting UNBC and would welcome the opportunity to discuss the project and the constitutional challenge they have submitted to the Federal courts.

TUESDAY

**Oct 28, 2014
10:00-11:00am**
