

Global Friday presents

Dr. Paul Summerville

Senior Fellow, Centre for Global Studies,
University of Victoria

The Global Context of Canada's Future

'The Global Context of Canada's Future' examines of the impact on Canadian sovereignty of the contemporary international system, of Canada's continental challenge, and of domestic policy. Is Canada powerless to assert its values in a global anarchy, neighboured by the world's most powerful country? What will a retired investment banker who worked for some of the most famous and infamous firms in the world have to say about these vital Canadian questions?

October 9, 2009 - Senate Chambers 12:00 – 1:30 pm
