

# GLOBAL FRIDAY PRESENTS

**Dr. Tony Weis, Geography,**  
*University of Western Ontario*

## **A Political Ecology of the Global Food Crisis'**

This talk will focus on making sense of the considerable world food price volatility since 2006, in terms of both the range of causes (including the agro-fuel boom, the increasing role of finance capital, and the central role of fossil energy in the industrial grain-oilseed-livestock complex) and the uneven vulnerability (reflected in widespread 'food riots').

**March 25, 2011**

**5-183**

**12:00—1:30 pm**
