Regrets:

The meeting commenced at 3:30 p.m.

1.0 S-200910.01 Approval of the Agenda
Hyndman / Reid
That the Agenda for the October 14, 2009 Public Session of Senate be approved as presented. CARRIED.

2.0 S-200910.02 Approval of Senate Minutes
Hyndman / Reid
That the Minutes of the August 24, 2009 Public Session of Senate be approved as presented. CARRIED.

Mr. DeGrace advised Senators that, referring to MATH 671, 672, 673 and 675, the date of first offering of the courses had been corrected from January 2009 (a typographical error) to January 2010.

S-200910.03 Change to Program Requirements — Environmental Studies Major
Ellis / Casperson
That, on the recommendation of the Senate Committee on Academic Policy and Planning, the course changes for the BA Major in Environmental Studies be approved as proposed. Effective date: January 2010 CARRIED.
Mr. DeGrace called attention to revised motion S-200910.03, which replaced the motion which had been circulated previously. In this corrected version, HIST 360-3, which had been removed accidentally from the Upper Division requirements for the Major in Environmental Studies, had been restored. In addition, he noted that the Geography Program had indicated their intent to waive the prerequisite for GEOG 424-3 for Environmental Studies students.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by strikethrough, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Major in Environmental Studies

The Bachelor of Arts in Environmental Studies emphasizes a social science and humanities perspective on environmental issues. The program provides a strong philosophical, social and scientific basis for understanding the full diversity of environmental issues and positions students to be effective agents for mitigation of, and/or adaptation to, environmental change.

Degree requirements: 72 credit hours
Area of focus: 24 to 29 credit hours
Elective credit hours in any subject as necessary to ensure completion of a minimum of 120 credit hours.

4.0 **President's Report**  

President Iwama reported that, at present, enrollment initiatives were uppermost in his mind, and that he was also engaged in discussions relating to the proposed Wood Innovation and Design Centre.

Dr. Iwama said that he would be consulting with the University community on matters surrounding a new “University Plan.” There had been five previous plans over the years, and the essence of these had been extracted and placed on a University web site (www.unbc.ca/plan). On this site had been placed the University’s vision and mission as articulated previously, the University’ values, and the institutional priorities — along with links to the original documents and a summary of those documents. Dates would be provided for upcoming meetings with the University community. In these discussions the President wants to reach out to the regions. He had already visited Quesnel, and will be taking the conversation further afield. All of the meetings would be "town hall" style, and there would be the opportunity for e-mail commentary as well. Everywhere he went, people seemed to be strongly supportive of UNBC and wanting to help.

The President noted that preparations for a response to the H1N1 virus were underway, and that many scenarios were under discussion. The problem, he said, lay in the ambiguity surrounding the evolving situation.

Dr. Iwama looked forward to his formal installation as University President on October 16th, and said that he viewed the event as a "celebration of the campus."

5.0 **Report of the Provost**  

Dr. Dale referred to the proposed Master of Physical Therapy program, and said that government budget issues made this unlikely to be a stand-alone program. At present the program was being examined along the lines of the Northern Medical Program model with UBC.

The "Wood Innovation and Design Centre" was a complex issue. The proposal had been mentioned twice in the Speech from the Throne, but the details of the project remained unclear, the intent varying depending upon the connections of the several interested parties. For his part, the Provost was trying to assure that there would be academic content in the project. Possible collaborators were UBC, BCIT and Partnerships BC, and a business plan was hoped for by early December.

6.0 **Question Period**

Dr. Casperson asked whether, in the course of discussion of a new University Plan, Senate would be included, and how that process would work. Dr. Iwama responded that the entire University Community — including Senate — would be involved in the process. December had been suggested as a "notional" time at which discussions would be finalized and a new University Plan in place. He wanted time with Senate
to discuss some 6 or 8 topics, and this might require a restructuring of one or more meetings. He noted that former President Jago had suggested that Senate might be wise to move to a “consent agenda” format for dealing with certain types of Calendar and Curriculum change matters, in order to make time for broader discussions.

7.0 Committee Reports

7.1 Senate Committee on Academic Policy and Planning

S-200910.04

Breadth Requirements

That, on the recommendation of the Senate Committee on Academic Policy and Planning, Senate tell the Colleges that they are now in charge of breadth, based on the definition of breadth from the subcommittee, and ask that they report back to Senate in one year regarding what they are doing, and in two years regarding what they have done.

Effective date: Immediately upon approval by Senate

It was noted that the recommendation now before Senate had been generated by a subcommittee of SCAPP charged with responding to issues that had been raised in the area of breadth requirements. Dean Young suggested that breadth requirements needed to be broad enough to be embraced by the community, and at the same time specific enough to be useful. The motion now before Senate also reflected approaches that had been suggested by the Colleges.

Dr. Binnema opposed the motion. He thought that lack of a University-wide requirement would not serve students well. He noted that other BC universities did have specific requirements and that, without specifics, breadth requirements with integrity would not arise from the motion before Senate. Dr. Young noted that the Colleges were invited to develop specific requirements where applicable; but he pointed out that, for requirements to apply to all programs in a practical manner, they would have to be extremely minimal. In addition, it was necessary to take out that a high percentage of new admissions to the University were transfer students already partway through their degree programs. In his view, addressing breadth at the College level actually enabled rigour.

Dr. Casperson recalled that it had been issues surrounding the previous breadth requirements and their applicability to transfer students that had largely de-railed those requirements. What was needed, he thought, was a university-wide solution that would take into account issues that arise with different categories of student. In Dr. Young’s view what had been advanced to Senate was in fact the most credible solution. Dr. Hyndman called attention to the Simon Fraser University requirements, highly-specific, that were working successfully. They were applicable in all programs and included both writing (in designated “writing courses”) and quantitative courses. But, she suggested that what was before Senate now was an improvement over the previous regulation.

Dean McGill had not been content with the motion as presented. He pointed out that the diversity within each of the two Colleges was as great as within the University as a whole. He was concerned that the colleges, in turn, might devolve breadth determinations to the individual program areas, which would put the University back where it had been previously. Senate needed to decide what should be the breadth requirement for the University as a whole. Dr. Ellis thought that, at the very least, Senate needed to state clearly “what Breadth means to this University,” without which statement there would be no consistent application of the requirement.

Dr. Iwama noted that the present motion called upon the Colleges to do what individual programs had not done. He thought the fundamentally important matter was that all UNBC graduates show evidence of breadth on their records, but there were significant issues in respect of course availability and timetabling.

Dr. Hutchings noted that the motion called upon Colleges to “report back to Senate,” and we might find ourselves having done nothing after two years. Dean Young pointed out that this matter had been under discussion for two years, and that there had been no breadth requirement in place for those two years.

Dr. Dale noted that each College contained both traditional Arts and Science programs, and professional programs. While the quality of a History degree, for example, would be enhanced by including a science
requirement, some professional programs might have to be exempted from the requirement on practical grounds.

Ms. McKenzie recalled that, as a UNBC student, it had been easy to understand the former breadth requirement. Now there was no clear requirement in place, and she would be comfortable with a return to the “quadrant” approach. Ms. O’Callaghan said that she had been a UNBC student under the former requirement, and had also provided academic advisement in this area. She thought it was important that students understand very clearly what it is that is required of them. Students should be able to use transferred credits to meet a University breadth requirement. The motion before Senate was too vague, she thought, and perhaps some “middle ground” could be found.

Dr. Casperson recalled that the former requirement disintegrated over technical issues surrounding implementation. While a centralized mechanism was needed, he was concerned that, if Senate were to approve a prescriptive proposal, negative reactions would be generated.

Motion:
Casperson/Haque
That the motion be referred to SCAPP for further consideration and response to Senate at a future date. CARRIED.

7.2 Senate Committee on Admissions and Degrees Dickson

S-200910.05
Revision to Undergraduate Calendar — “Other Admission Categories” (“Mature Student Entry” and “Interest Only” Sections)
Hyndman / Reid
That, on the recommendation of the Senate Committee on Admissions and Degrees, the “Mature Student Entry” and “Interest Only” sections under “Other Admission Categories” (p. 32 of the 2009-2010 Undergraduate Calendar) be amended as proposed. Effective date: Immediately upon approval by Senate CARRIED.

Mr. DeGrace explained that the changes proposed were for the purpose of providing students with greater clarity. It was suggested, and agreed to by the mover and seconder, that the fourth bullet under the heading “Mature Student Entry” have added to it the parenthetical comment: “(Students who have attempted 15 or more post-secondary academic credits are considered as potential transfer students.).”

Dr. Ellis asked why Interest Only students needed to re-apply every semester. Mr. DeGrace explained that this category was intended for students who, in almost all cases, wanted to take only one or two courses. Such students should expect to apply on a case-by-case basis. The category was not intended for continuing students, who should seek regular admission.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by strikethrough, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

**Mature Student Entry**

Each mature student application will be reviewed on its own merits. Mature applicants must be:

- be Canadian Citizens or Permanent Residents of Canada
- have been out of secondary school for at least three years
- be 21 years of age on or before the first day of classes
- have attempted fewer than 15 post-secondary academic credits
Students who have attempted 15 or more post-secondary academic credits are considered as transfer students.

Students must submit transcripts of any post-secondary work that they have completed for the purpose of prerequisite checks, and a résumé of both academic and other activities (employment, service, etc.) for the past three years. The University may exercise its discretion by admitting on a probationary basis.

This formalizes current practice. Commonly, and in the best interest of the student, the Office of the Registrar limits the number of courses that Mature Students may take in their first semester.

**Interest Only**

Students who do not intend to pursue a degree or certificate program at UNBC, but want to take courses for credit, may do so under the category of Interest Only to a maximum of 30 credits, provided they have not previously been refused admission to UNBC under any other category. This category of admission permits easy access to UNBC studies as minimal documentation at the point of entry is required.

Interest only students must:

- Enrol on a part-time basis at UNBC (less **fewer** than 9 credit hours)
- Re-apply every semester
- Obtain a minimum semester grade point average of 2.00 in order to remain eligible for re-entry under this category.

**Note:**

1. Interest Only students who wish to continue their studies beyond 30 credit hours in pursuit of a UNBC credential must re-apply, meet the general admission requirements as stated in the Calendar and, as applicable, declare a Major (see Academic Regulation 20).

2. Applicants whose first language is not English should refer to the section *English Language Requirements*.

3. Applicants previously or currently on academic probation or required to withdraw from any post-secondary institution are not eligible to apply for admission or re-entry under this category.
S-200910.06
Revision to Undergraduate Calendar — “Admission from Secondary Schools and CEGEP in Other Canadian Provinces (Alberta and the Northwest Territories)” Section

Hyndman / Reid

That, on the recommendation of the Senate Committee on Admissions and Degrees, the changes to the “Admission from Secondary Schools and CEGEP in Other Canadian Provinces (Alberta and the Northwest Territories)” section, on page 29 of the 2009/2010 Undergraduate Academic Calendar, be approved as proposed.

Effective date: Immediately upon approval by Senate

CARRIED.

Details of the approved calendar text are as follows (for revisions, deleted text indicated by strikethrough, new text indicated by underline, and [commentary, where included, in Courier New font within square brackets]):

Alberta, the Northwest Territories and Nunavut

Successful completion of an academic grade 12 program that leads to graduation and includes at least five courses with an overall 65% average selected from:

- English 30-1 or English Language Arts 30-1
- additional level 30 or level 31 courses necessary for the successful completion of grade 12. The fifth course subject must be distinct from the four academic courses (e.g., English Language Arts 30-1 and English Language Arts 30-2 cannot both be used).

### 7.4 Steering Committee of Senate

**S-200910.07**
**Revisions to Senate Handbook — Section 3 (w) (“Regular Meetings”)**
Jeffrey / Hyndman
That the Steering Committee of Senate recommend to Senate that the revisions to section 3 (w) (“Regular Meetings”) of the Senate Handbook be approved as proposed.
Effective date: Upon approval by Senate, to be implemented in the 2010/2011 academic year
CARRIED.

Mr. DeGrace explained that the proposed changes would make for speedier passage of motions through the committee process to enactment by the Senate.

**S-200910.08**
**Revisions to Senate Handbook — Terms of Reference for the Senate Committee on Regional Policy and Inter-Institutional Relations**
Hutchings / Jeffery
That, on the recommendation of the Senate Committee on Regional Policy and Inter-Institutional Relations and the Steering Committee of Senate, the revisions to the terms of reference for the Senate Committee on Regional Policy and Inter-Institutional Relations be approved as proposed.
Effective date: Upon approval by Senate
CARRIED.

Dr. Hyndman noted that the asterisk after the phrase beginning “Two students…” should be deleted.

### 7.5 Senate Committee on Nominations

**S-200910.09**
**Membership Changes to Senate and Senate Committees (no material)**
Reid / Hyndman
That, on the recommendation of the Senate Committee on Nominations, and barring further nominations from the floor of Senate, the following candidates, who have met all eligibility requirements to serve on Senate and Senate committees as indicated, be appointed as proposed.

Dr. Reid asked that the name “Rheanna Robinson” be added to the list of nominees for appointment as a Lay Senator appointment to the Senate Committee on Honorary Degrees and Other Forms of Special Recognition, to 31 March 2012. He noted that the appointment was appropriate at this time, because the Alumni Association was charged with setting up a task force to recommend a candidate for University Chancellor. There were no nominees from the floor.

CARRIED.

7.5.1 Election of Vice Chair of Senate

Senator Hutchings nominated Dr. Mark Dale to serve a second one-year term as Vice Chair. There being no further nominations, Senator Dale was elected by acclamation.

It was noted that a new Vice-Chair will need to be appointed in the fall of 2010, as Dr. Dale will have served 2 consecutive terms.

8.0 Other Business

8.1 Report of the Registrar (no material)  

Dean Madak reported on student registrations as of 1 October. Overall, FTE registrations were down by 3.1 percent compared to the same date in 2008. He recalled that, in 2008, registration increased between the last date for add/drop and 1 October, but in 2009 this did not happen. The largest drop in student numbers was from the lower mainland, due probably to the creation of several “special purpose universities” in that region. In addition, demographic trends for university age students in northern BC were downward. That said, he noted that additional (late) registrations were expected in certain programs, and in that context he was awaiting a more accurate account.

He noted that Dr. Haque was finalizing development of a “dashboard” system for displaying student registration data to allow easier statistical review. He would demonstrate this at the next Senate meeting in the context of displaying results for the 1 November registration “snapshot.”
