---

The meeting commenced at 3:30 p.m. In the absence of the requisite number of Student Senators, the Chair noted that quorum had not been obtained but Senators agreed to proceed regardless. Student Senators whose terms of office were expiring at the end of March were thanked by Dr. Iwama for their service.

**1.0      S-201303.01  
Approval of the Agenda**

Annis

That the agenda for the March 20, 2013 Public Session of Senate be approved as presented.  
CARRIED.

**2.0      Approval of Senate Minutes**

**S-201303.02  
Minutes of February 20, 2013**

Zahir

That the minutes of the February 20, 2013 Public Session of Senate be approved as presented.  
CARRIED.

**3.0      Business Arising from Previous Minutes of Senate**

No business arising was identified.

#### **4.0 President's Report**

**Iwama**

President Iwama provided a brief report, attached to these minutes as "Appendix I."

#### **5.0 Report of the Provost**

**Dale**

Dr. Dale reported that BCCAT has a working group to help with the implementation of the open access text initiative. The goal is to have 40 such texts available to students. This can be accomplished by adopting existing texts from other jurisdictions where appropriate, adapting available texts by adding or substituting Canadian or BC material, and creating new texts through partnership efforts.

Dr. Dale also reported on the status of recruitment for several positions, noting that the Dean of Graduate Programs search will be conducting video-conference interviews of a short list, the Dean of CASHS search will be interviewing on site next week, the Sustainability Manager search committee has been expanded to include a Faculty Member and a student and will be meeting soon to review applications, the University Librarian search committee meets on Thursday to develop a short list, the Vice-Provost Student Engagement search committee has its first meeting on Friday, and the position of Athletics Director has been posted.

#### **6.0 Report of the Registrar**

**Hanschen**

Mr. Hanschen had nothing to report.

#### **7.0 Question Period**

No questions were posed.

#### **8.0 Presentation — 2013-2014 Proposed Budget**

**Bray**

Prior to the presentation (attached to these minutes as "Appendix II"), Dr. Iwama provided some opening comments. He noted that when academic consultant Ken Steele was on campus speaking he indicated that the challenges facing UNBC are not unique, as this is a challenging time and the post-secondary education system is an area where budget cuts are being made by governments. However, Dr. Iwama added that in Alberta, although they are facing funding cuts, these cuts come after 4 years of relatively generous funding, while in BC our most recent cuts come after four years with no increases in funding. He reminded Senators of the process where BC institutions were asked to look for savings through collaborative procurement, for example, and both he and Vice President Bray participated in this process as members of the Executive (Dr. Iwama) and Steering (Ms. Bray) Committees. Dr. Iwama added that the report from Deloitte regarding the findings of this process is now available on the website of the Ministry of Advanced Education. The report essentially states that savings can be found, but to do so the government needs to expend further resources to identify these areas and mobilize activities. In the second phase of this initiative, the committee structure will change and Ms. Bray will no longer serve on a committee but Dr. Iwama will continue to do so.

Dr. Iwama noted that UNBC's enrolment numbers were flat, with the most positive numbers being demonstrated with regard to international and graduate students. The restructuring of Ancillary Services will hopefully lead to increased revenue. By law, the University needs to balance its books. Dr. Iwama was of the opinion that something more substantive than simply covering a deficit needs to be undertaken so that the future is not jeopardized. Dr. Iwama concluded his comments by stating that, at the end of the presentation, he would like to discuss priorities and strategies for the University.

Ms. Bray delivered the presentation, which is attached to these minutes as "Appendix II." She noted that the presentation highlights the information in the document that was distributed to Senators earlier this week.

Dr. Iwama stated that as a result of conversations taking place in the Alumni Lounge and with the CSAM College Council, he had invited Dr. Annie Booth and Dr. Greg Halseth to assist with engaging the University community in a collective discussion of priorities using a multipronged approach. He added

that Information Technology Services was currently working on an intranet which might serve as platform for disseminating information. Dr. Iwama stated that he would like to launch these discussions next week. Dr. Dale added that on page 5 of the budget document there were timelines for this initiative, suggesting that the conversations could be broad but not prolonged. Dr. Iwama concluded with the statement that he would like to have ongoing discussions beyond the timelines noted in the budget document and that the Senate Committee on the University Budget was also planning to begin meeting year-round.

## **9.0 Committee Reports**

### **9.1 Senate Committee on the University Budget**

**Deo**

#### **“For Information” Items:**

##### **SCUB20130319.01**

##### **2013 Annual Report from the Senate Committee on the University Budget**

That the 2013 Annual Report from the Senate Committee on the University Budget be approved and forwarded to Senate for information.

Effective date: March 19, 2013

The SCUB report was presented to Senate for information. Senator Deo also delivered a presentation (attached to these minutes as “Appendix III”). Dr. Iwama thanked SCUB members for their work.

After the SCUB presentation concluded, a question and answer period took place with regard to the budget. It was suggested that all budget line items be examined to see if any of them can be reduced as a result of having unspent funds year after year. Dr. Iwama was supportive of this idea, suggesting that tightening line item estimates might bring some additional funds. A question was asked about why the University felt a need to replace the telephone system and Dr. Iwama replied that there are ongoing costs associated with not going digital while Ms. Bray added that new parts and support for this system are no longer available. She added that changing the system will result in reduced operating costs. It was also suggested that SCUB be provided with more than one copy of the budget material. The costs associated with reverting to the PST and GST from the HST were also discussed.

The following motion was then put:

#### **Motion:**

Whitcombe / Zahir

That Senate express its appreciation to those who worked on the budget this year.

CARRIED.

It was agreed that better information would be useful for budget discussions and planning and that there is much data available but it needs to be determined what information is desired to be extracted from it.

Appreciation was expressed by Senators to SCUB for meeting with interested parties. It was suggested that next year SCUB advise invitees what information they would like from them prior to the meetings so that the discussion can be better informed.

At 5:30 p.m. a motion was moved to extend the meeting.

#### **Motion to extend meeting:**

Whitcombe / Casperson

That the Senate meeting be extended beyond 5:30 p.m.

CARRIED.

A few additional comments were made with regard to the budget, including that planning for the budget takes precedence over planning for the University’s financial health and that we should not lose track of long-term processes. Dr. Iwama stated that he was looking forward to next week’s Town Hall meeting as a start to that discussion and that he hopes to establish a schedule for these ongoing discussions.

**“For Approval” Items:**

As the meeting was not quorate, the Chair of the Senate Committee on Nominations asked that motions S-201303.03 and S-201303.04 be deferred to the next meeting of Senate.

## APPENDIX I

**President's Report**  
**Senate meeting of March 20, 2013**  
**Prepared by Charlene Myers**

Dr. Iwama reported that today was the last day that the Legislature was in session so things have been quiet. The Wood Innovation and Design Centre continues to gain momentum in the media but he has no further information about it with regard to UNBC. Dr. Iwama indicated that detailed costing for programs is prepared and the University waits to hear what operating support will be provided if the building goes ahead. He reiterated that the University will not take on any additional programs without the provision of adequate funding by the government as we cannot afford to do so.

Dr. Iwama recently attended a Public Policy Forum in Ottawa at which he was invited to present "the UNBC story." He delivered this presentation to presidents and directors of the Canadian Foundation for Innovation, Tri-Council Agencies, Ottawa charities, Aboriginal Affairs and Northern Development and the Privy Council Office. The group was keenly interested in UNBC and will plan to visit us at some time in the future. UNBC's research, and the number of graduate and First Nations students, was attractive to them. Dr. Iwama was invited to this forum as a result of a forum held here with community members and Aboriginal leaders with regard to the oil and gas industry, which had a strong impact in Ottawa. UNBC has a role to play in bringing the community and resource sector together. Dr. Iwama concluded that UNBC has a friend in David Mitchell, President and CEO of the Public Policy Forum.

# Proposed 2013/14 UNBC General Operating Budget April 1, 2013 – March 31, 2014

# THE SENATE COMMITTEE ON THE UNIVERSITY BUDGET (SCUB) REPORT

(SENATE MEETING OF MARCH 20, 2013)

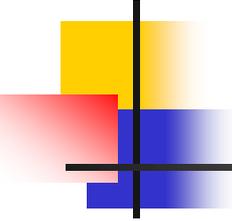

---

by

**Balbinder S. Deo**

**Chair, SCUB**

**University of Northern British Columbia**

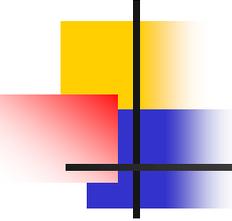

# MEETINGS HELD SO FAR?

---

- President, George Iwama; Provost, Mark Dale
- Bill Owen (Student Success and Enrollment Management); Troy Hanschen (Registrar)
- Dan Ryan (Dean CSAM); Bob Tait (Acting Dean CASHS)
- Bill McGill (Dean, Graduate Studies).
- UNBC senators; FA representatives
- Rob van Adrichem (VP, External Relations), and David Claus (Assistant Director Facilities).
- Ranjana Bird (VP, Research), Program chairs

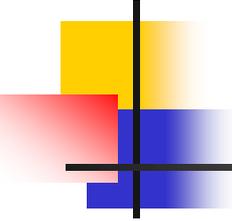

**There is also a plan** to meet faculty members, librarians, students and their representatives, staff and their reps...

# OVERVIEW –UNBC STATUS?

---

- UNBC - Mclean's ranking **2nd** in Canada
- The **small class size** is well appreciated and valued by its students.
- Small research intensive university
- Research work of its researchers highly reputed in Canada and abroad

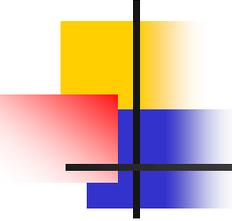

## OVERVIEW- DIRECT IMPACT OF EARLIER BUDGET REDUCTIONS?

---

- **Morale** of UNBC faculty & staff **low**.
- There is **reduction in the level of student services**
- Some **programs were unable to hire faculty** where it is needed the most.
- **Positions remained unfilled** for the last many years.
- In some programs, **more than 60 percent of the teaching load** has to be given to the non-tenured faculty.
- There is a **dramatic increase in the class sizes** in some programs.

**Negatively affect UNBC Ranking achieved over so many years of hard work**

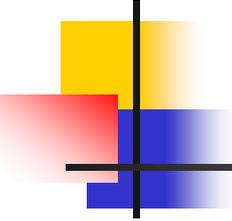

## OVERVIEW- INDIRECT IMPACT OF EARLIER BUDGETS?

---

- **Increased failure rate** of students in some classes which leads to organizing additional sections (added cost).
- Students taking **courses from other institutions** (lost revenue for the university).
- Negative impact **on the 'small class size' reputation** of UNBC
- Reducing the **diversity and breadth of some course offerings** which may have further negative impacts on enrolment and retention of students
- Well trained and established researchers and teachers **looking for jobs elsewhere.**

**Negatively affect UNBC Ranking achieved over so many years of hard work**

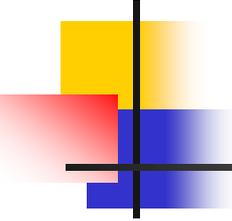

## BUDGET AND THE BUDGETARY PROCESS?

---

**Almost all segments of the university community** intend to provide their input and effort to the budgetary process for the good of the university.

**Therefore,**

To have their input and engagement, the level of transparency, the channels of communications, and methods of engagement need to be improved /developed

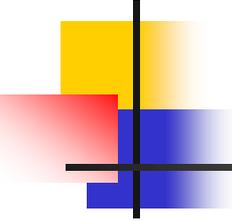

## UNBC BUDGETARY PROCESS- PERCEPTIONS?

---

- **Less transparent**, and is not communicated to the university community effectively.
- Consultations and inputs specifically at the program level are minimal in many cases.
- Management is simply cutting resources across programs/ departments without looking at the strategic choices of the departments/programs (For example, a 3% cut across all programs/departments large or small with minimal or no input from programs and departments )
- No comprehensive approach followed to deal with budget deficits.

### **UNBC Community want...**

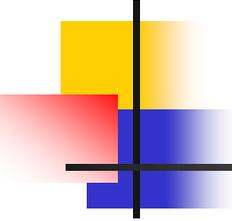

University community wants to know in advance about various initiatives that are to be supported, or not to be supported, through budget allocation.

## BUDGET AND THE BUDGETARY PROCESS?

---

- The budgets, balance sheets, income statements, and other accounting documents are **important but are technical**
- The information and data contained in these documents **is difficult to understand** by majority of members
- **Faculty and staff want to get the information translated into layperson terms** so that they are able to truly involve and engage themselves in the budgetary process
- SCUB receives only one copy of the budget folder in the third or fourth week of February (February 19th this year)
- Insufficient time for SCUB members to understand and communicate the meaning of information

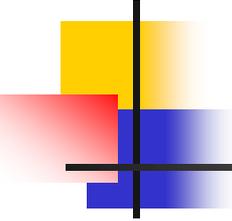

## RECOMMENDATIONS- BUDGET AND THE BUDGETARY PROCESS?

---

To **provide**;

- The draft budget in the first week of February
- More copies of budget folders so that committee members should be able to examine the budget as per their convenience
- The depth of data and information for each program in CSAM and in CASHS.
- SCUB with the services of a resource person (in addition to V.P. Finance, and Director, Budgets) who have the required accounting skills to translate the knowledge contained in the budget to the members, senators and other segments of the university community
- UNBC should make strategic choices instead of slicing a percentage (for example, 3% budget cut) of resources across departments and programs.
- The committee recommends a continued comprehensive approach to deal with the budget deficits.

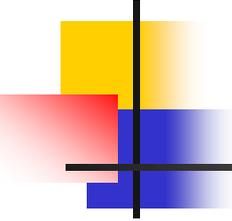

# RECOMMENDATIONS- TO INCREASE STUDENT ENROLMENT?

---

UNBC domestic student enrolment is almost 500 FTE's below the Government funded mark and it opens the door to make suitable changes to current plans, such as;

- Recruitment of students from the International Market
- Financial and non-financial incentives to recruit domestic students
- Financial and non-financial incentives to retain students
- Incentives to students to take a full load of courses in each semester
- Make student recruitment arrangements with other PSE institutions

## OVERVIEW –INTERNATIONAL STUDENT MARKET?

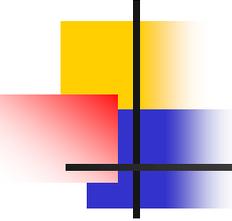

---

- “...International students are a vital source of revenue for BC's PSE institutions .....” (Ken Steele, Vancouver Sun).
- International graduate and undergraduate student enrolment continues to rise in Canada.
- BC government is encouraging institutions to increase international students by 50%.

**However,**

**UNBC has not been able to harness this potential to a large extent.**

**There is an opportunity to recruit students from international student markets specifically from countries with growing student markets.**

## OVERVIEW –UNBC FUND RAISING ?

---

**UNBC is lagging behind in fund raising initiatives as compared to other universities in BC.**

- Some of the program chairs are very keen to support the UNBC Advancement Office for fund raising efforts
- Business Schools in other universities work with their respective university advancement offices to raise funds
- UNBC should also make use of the skill and talent available in UNBC School of Business to raise funds to support various new initiatives.

**For fund raising efforts input of faculty, alumni, and students should be made use of for better results.**
