4.0 President’s Report

Iwama

The President reported on the Wood Innovation and Design Centre, noting that the matter has not been discussed recently and that he was seeking an update on the status of this initiative.

Regarding enrolment and retention, President Iwama expressed that this is a very important topic, and that the assistance of everyone in the University is required to address enrolment numbers. He added that he was especially seeking input of students and that he recognizes that all members of the University community need to work together to address enrolment.

Dr. Iwama indicated that the research-intensive universities were looking into moving out of the government reporting entity (GRE), for a number of important reasons including governance, labour relations, accounting practices, and financial.

Finally, Dr. Iwama mentioned that the Steering Committee of Senate would welcome input from Senators regarding the topics for discussion to be undertaken at upcoming meetings of Senate.

5.0 Report of the Provost

Dale

The Provost report that he would be presenting the enrolment numbers at the next meeting of Senate, but that undergraduate enrolment was down and needs to be address. As a result, the University has advertised for the position of Assistant Provost Enrolment. Dr. Dale also reported that discussions were

taking place regarding the expansion of Engineering programs, and that the University was receiving positive signals that approval would be granted for some form of a Physical Therapy program, probably as a Clinical Education Centre rather than a complete program. With regard to the Health Sciences PhD, the proposed program had received a positive external review, and the University was awaiting results in that regard.

6.0 Question Period

A Senator asked whether the University had contemplated the use of external recruiters, and the matter was discussed. The President was asked about his trip to China and reported that it went very well and that a delegation from Jiangmen would be coming to UNBC in October. Some questions were asked regarding the Space Committee and the survey of classroom space that was conducted some time ago. The matter was discussed and the President suggested that, although the Space Committee is not a committee of Senate, it might be interesting to invite someone from the Committee to speak to Senate.

Revision to Senate Handbook — Consent Agendas

Hutchings / Reid

That the most recent edition of the Senate Handbook be amended to recognize formally the practice of using Consent Agendas through the following changes (commentary in Courier font):

- In Article 3(u)(i) [Order of the Agenda] insert “Approval of the Consent Agenda” between “Question Period” and “Reports of Committees”.
- In Article 3(bb) [Conduct of Meetings] add a new subsection 3(bb)(vii) that reads as follows:

The Senate may use a Consent Agenda to expedite the routine business of Senate. The Consent Agenda is an omnibus motion to approve motions that have been identified as being routine, either by Senate Committees on their own behalf, or by the Steering Committee of Senate.

The intent of using a Consent Agenda is to approve rapidly items of a routine nature, while still protecting the rights of individual Senators to engage in debate on any matter that a Senator feels to be of importance.

When a motion to adopt the Consent Agenda is on the floor the following rules apply:

- (a) As the purpose of the motion is to expedite business, the motion is undebatable.
- (b) At the request of any voting Senator, the Consent Agenda shall be amended to remove from the omnibus any motion that the Senator wishes to discuss.
- (c) Adoption of the Consent Agenda requires a simple majority vote.
[Should adoption of the Consent Agenda fail, all motions are placed on the regular agenda.]
- (d) After the consent agenda is adopted, the items on it are considered adopted, and are consequently ignored when encountered in the normal course of business.
[Should need arise, a motion adopted through the consent agenda may be reconsidered through a normal motion to reconsider.]
