

Video Conferencing of Defences

- Arrangements/permission should be obtained in advance of the defense. Simply showing up and recording will not be permitted.
- If anyone is going to record, ALL parties in attendance (including phone) need to have given their written consent to be videotaped.
- In addition, under legislation, signage must be posted if videotaping is occurring (e.g. Convocation). Therefore, signage on the doors and via email notice is required.
