Forest Ecology and Management students are required to complete a minor as part of their degree. The eligible minors will allow students to gain a solid foundation in numerous specialized areas of forest management. For eligible minors, please consult the Academic Calendar. Minors have different credit hour requirements, but for all minors, 12 credit hours must be at the upper-division (i.e. 300 or 400) level.

Students must ensure that all prerequisite courses have been completed for elective choices in each minor. Beyond the specific minor requirements, students must complete elective credit hours as necessary to ensure completion of a minimum of 123 credit hours in total.
