

STEWART, GREGORY ALLEN MYLES  
ORDER IN COUNCIL - BOARD MEMBER

A Chemical Engineering graduate of the University of British Columbia, Greg began his career working at Teck Cominco's metallurgical facility in Trail, British Columbia. After completing an MBA from the Ivey School of Business at the University of Western Ontario in 2005, Greg returned to Prince George, B.C. to work for the family business, Sinclair Group Forest Products Ltd. Greg spent his first three years leading Winton Homes, where he gained valuable experience in the retail and engineering side of the business. Greg was named Interim President of Sinclair Group Forest Products in January 2009, and President in October 2009. Sinclair Group is an integrated forest products company founded in 1962 by Greg's grandfather, Bob Stewart, in partnership with Ivan Andersen. The company continues to operate today by the same values upon which it was founded: leadership, family and community.

Sinclair Group has grown to be a leading supplier of SPF stud lumber to North America and Japan through its Apollo, Lakeland and Nechako mills. Included in the group of companies is Premium Pellet, and other partnerships aimed at extracting the full value of the fibre processed. In addition to his role at Sinclair, Greg serves as Chair of the Council of Forest Industries and Wood WORKS! B.C. provincial steering committee, a Governor at the University of Northern British Columbia, a Director on the Board of the B.C. Lumber Trade Council, and Past Chair for B.C. Wood. Greg lives with his wife and two daughters in Prince George, British Columbia.
