

MULLINS, PHILIP
FACULTY - BOARD MEMBER

Dr Phil is an Associate Professor in Outdoor Recreation and Tourism Management in the Department of Ecosystem Science and Management, Faculty of Environment, hired at UNBC in 2009. He supervises and teaches graduate students in the Natural Resources and Environmental Studies program; his research focuses on socio-ecological relationships involved in the landscapes and activities of outdoor recreation. He completed undergraduate degrees (Geography and Outdoor Recreation) at Lakehead University, as well as MA and PhD at University of Alberta. Phil has extensive professional experience with planning and running international field schools.

He has served on various UNBC committees including Curriculum Committees, Academic Search Committees, both CSAM and CASHS College Councils, College Promotion and Tenure Committees (CSAM and CASHS), the UNBC Research Space Advisory Committee, as well as UNBC's Academic Action Plan working group for student experience and pedagogy, and the UNBC Academic Action Plan Steering Committee. He has extensive experience with committees at the program, department, faculty, and university level. He has been involved with university planning in the past and have a passion to ensure that our institution thrives in support of our students, academic programs, and research, as well as its benefit to northern B.C. and beyond.
